

PreK - Grade 2 Class Learning Map Visual Art

skills mastered

school

grade

teacher

The Spiral Learning Map assesses the class's progress in Visual Art. PreK and K teachers will begin marking the "mile markers" closest to the center of the Spiral. 1st and 2nd grade teachers will highlight the mile markers that their classes have already learned and begin moving outward from there. The Rainbow Charts take the Spiral's mile markers and expand them into lessons. The Rainbow Charts will thereby show an obvious skill difference between grades and help the teacher to locate and lead her class through the mile markers toward the outside of the Spiral.
